DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

The amendment filed on 2/5/04 is not fully responsive because: The amendment did not include the amendment to the abstract and the amendment to the specification that were included in the non-responsive amendment filed on 10/28/03. The amendment filed on 10/28/03 was a non-compliant amendment and was not entered. In addition, the amendment to the specification and the abstract in paper filed on 10/28/03 were not in compliance with revised amendment practice 37 CFR 1.121. The amendments to the specification and to the abstract did not each begin on a separate sheet. In addition, the amendment filed on 10/28/03 provided a marked-up copy of the abstract and a clean version of the abstract. The revised guidelines state that an accompanying clean version of the abstract is not required and should not be presented.

When filing the amendment to this instant action, applicants are reminded to follow the revised amendment practice 37 CFR 1.121. See 68 Fed. Reg. 38611 (June 30, 2003) or website <http://www.uspto.gov/web/patents/ifw/>.

Since the submission appears to be a bona fide attempt to provide a complete reply to the prior Office action, applicant is given a shortened statutory period of ONE MONTH or THIRTY DAYS from the mailing date of this letter, whichever is longer, to submit a complete reply. This shortened statutory period for reply supersedes the time period set in the prior Office action. This time period may be extended pursuant to 37 CFR 1.136(a).
